Cyprus: TotalEnergies announces a new gas discovery in offshore Block 6

Paris, 21 December 2022 – TotalEnergies and Eni (operator) have made a new gas discovery at the Zeus-1 well, in Block 6, offshore Cyprus. This discovery follows the Calypso-1 and the Cronos-1 discoveries made on the same block respectively in 2018 and August 2022. The Zeus-1 well encountered 105 meters of net gas pay in carbonate reservoirs that re-enforces the promising outlook for the area and its development.

Located 162 km off the Cyprus coast and 5 km West of Cronos-1, Zeus-1 has been safely drilled and successfully tested by the *Tungsten Explorer* drillship.

“This success at Zeus-1 further enhances the potential of Block 6, only four months after the Cronos-1 discovery”, said **Kevin McLachlan, Senior Vice President, Exploration at TotalEnergies.** *“New data gathered from the well will assist our ongoing assessment of fast-track development options for the discovered resources.”*

TotalEnergies holds a 50% interest in Block 6, where Eni is the operator (50%). In Cyprus, TotalEnergies is also present in offshore Block 11 (50%, operator), 7 (50%, operator), 2 (20%), 3 (30%), 8 (40%) and 9 (20%).

About TotalEnergies

TotalEnergies is a global multi-energy company that produces and markets energies: oil and biofuels, natural gas and green gases, renewables and electricity. Our more than 100,000 employees are committed to energy that is ever more affordable, cleaner, more reliable and accessible to as many people as possible. Active in more than 130 countries, TotalEnergies puts sustainable development in all its dimensions at the heart of its projects and operations to contribute to the well-being of people.
