

## United States: TotalEnergies enters 40 Chevron-operated exploration blocks, building on a successful U.S. offshore partnership between both Companies

**Paris, June 16, 2025** – TotalEnergies announces the acquisition of a 25% working interest in a portfolio of exploration leases Offshore U.S. from Chevron (operator).

The 40 Outer Continental Shelf (OCS) federal leases, spanning approximately 1,000 km<sup>2</sup> and located 175 to 330 km from shore, include 13 blocks located in the Walker Ridge area, 9 blocks in the Mississippi Canyon area and 18 blocks in the East Breaks area.

The transaction provides access to multiple offshore Exploration plays and prospects, strengthening the successful U.S. offshore collaboration with Chevron beyond the existing partnerships in [Ballymore \(40% TotalEnergies\)](#) which achieved first production this year, [Anchor \(37.14%\)](#) where production started-up last year, and the Jack (25%) and Tahiti (17%) producing assets.

*“This transaction is in line with our consistent strategy of filling our Exploration portfolio with low cost and low emissions options, and will significantly expand TotalEnergies’ Offshore U.S. exploration acreage, combining a wide range of geological plays and prospectivity,”* said **Kevin McLachlan, Senior Vice- President Exploration**. *“Building on the momentum of the recent Ballymore and Anchor startups, we are very pleased to expand our successful partnership with Chevron, and we expect to mature Exploration drill decisions on these blocks utilizing advanced 3D imaging technology to unlock large remaining U.S. Offshore production potential.”*

### TotalEnergies in the United States

TotalEnergies is deploying its integrated energy model across the United States, where it has been active since 1957. Since 2022, TotalEnergies has invested nearly \$11 billion in the U.S. to accelerate development in oil, LNG, and low carbon electricity. With over 10 million tons of output in 2024, TotalEnergies is the [leading exporter of U.S. LNG](#) and is integrated throughout the LNG value chain, with upstream gas production assets in Texas and offshore U.S. The U.S. is also a key country for the deployment of TotalEnergies' Integrated Power strategy – with 10 GW of onshore utility-scale solar, wind and battery storage, installed and under construction. Find out more about TotalEnergies' U.S. presence [here](#).

### About TotalEnergies

TotalEnergies is a global integrated energy company that produces and markets energies: oil and biofuels, natural gas, biogas and low-carbon hydrogen, renewables and electricity. Our more than 100,000 employees are committed to providing as many people as possible with energy that is more reliable, more affordable and more sustainable. Active in about 120 countries, TotalEnergies places sustainability at the heart of its strategy, its projects and its operations.
